

NESAN *trika*

Company Profile

The reliable Men's and Women's
Knitwear and Knitted Accessories Company.

Business crafted by
expert professionals.

NESAN Triko, is a reliable knitwear and knitted accessories company, offering a broad range of fashionable apparel and accessories.

Dedication to produce high quality products have turned NESAN into a force to be reckoned within the world of suppliers.

NESAN offers a quality conscious production therefore enables international companies to benefit from its expertise and experience in the Turkish knitwear industry, which after China is the second biggest supplier of apparel to Europe.

Story

Nesan Triko was founded in Istanbul in 1991 by Neriman Akgun as a small-sized factory producing for the local market.

Today, Nesan is a globally operating men's and women's knitwear, knitted accessories company, ranked within the top five knitwear exporters list in Turkey, offering a broad range of fashion apparel and accessories.

Our collections cater for every occasion, appeal to the most diverse target groups, and satisfy the most challenging demands of our customers.

Our Istanbul factory in Ikitelli is based on an 8500 sqm covered area with a monthly in-house capacity of 150.000 units. Our newly built Düzce factory is operating on 8000 sqm base with a monthly in-house capacity of 300.000 units.

This dedication and commitment have turned NESAN into a major player as a manufacturer in the knitwear platform where, it has established a strong presence in the biggest markets in Europe, namely the UK and Spain.

Vision and Mission

NESAN's vision has always been to transcend the borders of Turkey, create global customer portfolios and attain a remarkable position among the international knitwear manufacturers. Increasing the export volume gradually and teaming-up with the leading brands directing the fashion world has become a mission on this route.

NESAN is focused on forming the most effective organization, adopting the same vision as a team and setting correct marketing strategies designed to meet the needs of each market.

Values

- Collaboration
- Creative Diversity
- Innovation
- Integrity
- Honesty
- Accountability

A talented team with a shared
vision of delivering great results.

Team

Innovative, Talented, Driven

A professional and dedicated management team, supported by qualified work power of over 500 personnel in our premises in Istanbul and Düzce, ensures that the highest level of service is provided to all our customers by maintaining the excellent quality of our products at competitive prices in the shortest lead-time possible.

Sustainability

Nesan has always been eager in adopting newer and more efficient technologies and is aiming to contribute to the growth of green manufacturing in its factories by implementing environmentally friendly processes and energy efficient practices, planning for a better and greener future. As a forward-thinking and an environmentally friendly company, Nesan is using solar energy to make its operations more sustainable and reduce carbon footprints.

Our Düzce factory will be saving 400.000 tons of Co2 per year with its 1972 roof top solar panels with 1MW electric capacity to feed our knitting, washing, linking and ironing divisions.

Our water treatment installations on our both locations in Istanbul and Duzce help us to minimize the water consumption and help us to pollute less. 70% of our products are made with sustainable fibers and produced in an environmentally friendly way.

Nesan is environmentally friendly green manufacturer,
committed to sustainable practices.

NESAN's production excellence works in harmony with its disciplined business approach.

Our flexible and integrated business model helps us to seize new opportunities to expand the business worldwide into new markets, while staying true to our mission and executing our global vision.

The key elements of our growth policy are:

Passion for innovation and novelty:

With our commitment to innovation and novelty, we follow and implement all new production technologies and update our own in-house machinery on a yearly basis and make sure that our sub-contractors are also up-to-date, as they are an important physical extension to our company.

Insistence on international presence:

Our goal is to broaden our customer range by our specific approach to its business climate and structure. Our strong and flexible infrastructure allows us to capitalize on opportunities and grow our businesses around the world.
